SG Agritech

The Grain Engineering Company

Single Kernel Moisture Meter (Table Top)

Model CTR-500FE

Shizuoka Seiki ,Japan

Paddy Rice Wheat Corn Bean Barely Soya bean

SINGLE KERNEL MOISTURE TESTER
CTR-500F series

Fast moisture distribution analysis at a time of receiving grains.

Paddy Wheat Buckwheat

Outcome of poor drying grains can quickly be found on LCD screen

Instantly determine moisture distribution. Green, Yellow, and Red color result provides easy to read moisture distribution at a glance. Variation of moisture distribution on grains at a glance on LCD screen. Drying time is varied by moisture content and variation of grains. Checking variation of moisture distribution of grains will prevent over drying accident.

Green Yellow Red

Moisture content and variation of grains

Features

Single Kernel Measurement

Colour touch Screen

Built in Printer

Measurement of Moisture up to 40%
